Profile Summary

I'm Animesh Karan, Motivated B.Tech Computer Science & Engineering student with a strong foundation in Core Java, SQL, and front-end web development (HTML, CSS, JavaScript). I am passionate about learning new technologies, problem-solving, and building user-friendly applications. Actively seeking opportunities to apply academic knowledge, gain hands-on industry experience, and contribute to real-world projects in a collaborative environment.

Education

College of Engineering & Management, Kolaghat

July 2023 – June 2026

B.Tech in Computer Science & Engineering

CGPA: 7.4/10

Relevant Coursework: Data Structures, Algorithms, OS, DBMS

Technical Skills

- **Languages:** Core Java, SQL, HTML, CSS, JavaScript
- **Frameworks & Libraries:** Bootstrap, React, Tailwind CSS, Node.js, Express.js
- **Databases:** MySQL (Basic)
- **Other:** Git/GitHub, REST APIs (Beginner)

Projects

- ❑ **Mental Health Website** – Designed and developed a responsive personal website to raise awareness about mental health.
 - Built using HTML, CSS, and JavaScript with a clean, user-friendly interface.
 - Focused on accessibility, readability, and simple interactive components.
 -  [Live Demo](#)
- ❑ **Furnishop (E-commerce Frontend)** – A furniture store front-end website that simulates an online shopping experience.
 - Implemented product showcase, navigation, and responsive design for a seamless shopping UI.
 - Built with HTML, CSS, and JavaScript to demonstrate e-commerce workflows.
 -  [Live Demo](#)
- ❑ **E-Learning Website** – Developed an interactive platform for online learning.
 - Created course listing, responsive layouts, and structured content presentation.
 - Designed to enhance user engagement and provide a smooth learning interface.
 -  [Live Demo](#)
- ❑ **Techno Eng & Carbon Brush Co (Client Project)** – Built a business website for an engineering and carbon brush company.
 - Used React for component-based UI and implemented form validation for client inquiries.
 - Deployed on Netlify, ensuring fast, reliable hosting and responsive cross-device design.
 -  [Live Site](#)
- ❑ **Student Management Backend** – A backend system to manage student records and operations.
 - Built REST APIs using Spring Boot to handle CRUD operations.
 - Implemented JUnit tests to ensure reliability and correctness of APIs.
 -  [Code Repository](#)
